Abdullah Al Fahim

Broadcast & IT Engineer | Brand Designer | App Developer

Tongi, Gazipur, Bangladesh | Phone: +880 1871 295320 | Email: alfahim604@yahoo.com
Portfolio: abdullah-al-faahim.github.io | LinkedIn: linkedin.com/in/abdullah-al-fahim

Summary

Broadcast and IT engineer at Channel i with a BSc in Electronics & Communication Engineering, eight years of brand and visual design, and a portfolio of Android, desktop and web apps I have designed, built and released. I keep a 24/7 television station on air through Master Control Room operations, preventive maintenance and clear technical SOPs. I design brand identities, social media campaigns, UI and print for organisations in Bangladesh, and I build offline-first, privacy-focused apps in Kotlin, Flutter and JavaScript for Bangla and English users. I bring networking, systems administration, broadcast transmission, design and front-end development together in one person.

Skills

Broadcast & Transmission: Master Control Room (MCR) operations, on-air continuity, playout automation, encoding, live contribution, Grass Valley, Ross Video, Imagine Communications, SAM switchers, Harris on-screen graphics, Ericsson, Harmonic, LiveU, TVU Networks

Networking & Infrastructure: Routing and switching, LAN, MAN, WAN, WLAN, DHCP, OSPF, network security

Systems & IT Support: Windows Server 2016, Windows 10/11, Linux, PowerShell, Bash, system administration, IT support, preventive maintenance

Software Development: Kotlin (Android), Flutter, Dart, JavaScript, Electron, Python, C, C++, HTML, CSS, PHP, WordPress theme development, Supabase, Git, GitHub, GitHub Pages, LaTeX

Design & Media: Brand identity, logo design, brand guidelines, social media design, web banners, UI/UX design, landing pages, print and presentation design, illustration, video editing, photography

Design Tools: Adobe Photoshop, Adobe Illustrator, Adobe Premiere Pro, Adobe Creative Cloud, Figma, DaVinci Resolve

Productivity Tools: Microsoft Office (Word, Excel, PowerPoint), advanced Excel, Google Workspace, Google Sheets, Notion, Trello, Jira

Professional Skills: Leadership, cross-functional coordination, technical writing and SOPs, training facilitation, public speaking, project and event management, content strategy

Work Experience

Broadcast Engineer (Transmission), Channel i, Impress Telefilm Ltd., Dhaka — Sep 2024 – Present

- Ensure 24/7 broadcast continuity for a national satellite television network through proactive Master Control Room (MCR) management.
- Reduced system downtime by 30% through preventive maintenance, achieving 99.99% uptime.
- Supported 400+ live event broadcasts with zero signal loss, coordinating with production and news teams.
- Wrote technical SOPs and troubleshooting guides that improved team efficiency and cut problem-resolution time by 35%.
- Work across transmission, encoding and live contribution systems, including playout automation and on-screen graphics.

Founder & Creative Director, Utopia SoftTech, Dhaka — 2018 – Present

- Run a design and software studio delivering brand identity, presentations, apps and tools for clients and users in Bangladesh.
- Design logos, brand identities, brand guidelines, social media campaigns, web banners, magazines and pitch decks; portfolio includes work for Laptop World BD, NUSDF Bangladesh, AI Crafters Bangladesh, GreenOn Digital and Market Canvas Magazine.
- Published 45 design projects on Behance and Dribbble across branding, social media, UI/UX, print and motion.
- Design, build and release Android, desktop and web apps end to end, from icon and UI to code, testing and release pages (see Software and Development Projects).

Executive, IT & System Support (MIS), Laptop World BD, Dhaka — May 2023 – Jun 2024

- Developed a cost-effective invoice application in Google Sheets that automated daily transaction tracking and record keeping.
- Managed and updated customer databases, keeping records accurate and up to date.
- Introduced an interactive customer experience service that let customers test laptops before purchase.
- Designed 300+ branding and marketing materials for product launches, in-store promotion and the sales team.

Software and Development Projects

TaskBell – Offline Android task manager with alarm reminders (Kotlin) 2026

- Rings twice for every task: a pre-reminder at a chosen lead time and a start alarm that covers the lock screen and rings even in silent mode.
- Tasks hold checklists, files and photos, contacts with call, SMS, WhatsApp and email actions, and map locations; alarms survive restarts, app updates and time-zone changes.
- No internet permission, no account, no ads or analytics; user-controlled backup file with preview before restore.
- Live page: abdullah-al-faahim.github.io/TaskBell-releases

Taka – Personal finance manager for Bangladesh (Flutter) 2026

- Private, offline money manager that tracks cash, bKash, Nagad, bank accounts, DPS, Sanchayapatra, loans and insurance.
- Full Bangla and English interface, budgets and reports; no sign-up and no ads.
- Live page: abdullah-al-faahim.github.io/taka-releases

Roktobondhu – Blood donor app for Bangladesh (Flutter, Supabase) 2026

- Privacy-first app that shows blood requests and willing donors on one live map, with alerts, request acceptance and donor tracking.
- Releases: github.com/abdullah-al-faahim/Roktobondhu-releases

Zakat Calculator – Bangla-first Android zakat calculator 2026

- Calculates zakat on cash, gold and livestock, plus ushr and fitra, with Quran and hadith evidence for each rule; Bangla and English, light and dark themes.
- Releases: github.com/abdullah-al-faahim/zakat-calculator-app

Telecast Time – Time calculator for broadcast operations (Android) 2026

- Duration tape, drop-frame timecode, live countdown and rundown planner for broadcast engineers and producers.
- Releases: github.com/abdullah-al-faahim/telecast-time-calculator-app

PhotoCard Studio – Desktop editor for news photocards (Electron, JavaScript) 2026

- Figma-style Windows editor for Bangla and English news photocards, with templates, layers and brand settings; installer and portable builds.
- Source and releases: github.com/abdullah-al-faahim/photocard-studio

khanfarhana.info – Custom WordPress theme and content platform (WordPress, PHP) 2025 – 2026

- Designed and built a custom theme for a youth leader and LinkedIn creator: homepage redesign, services page with tiered pricing cards, brand page with partner ticker and team section, and an animated maintenance-mode theme.
- Case study: github.com/abdullah-al-faahim/khanfarhana.info-case-study

Electronics Circuits Lab – NI Multisim circuit projects 2025

- 23 simulated circuits covering op-amps, flip-flops, logic gates, diodes and AC analysis.
- Repository: github.com/abdullah-al-faahim/electronics-circuit
